Day 6: Notification

Assignment 1: Create and handle notification events

Create a notification with a music player interface with 2 type: normal and Expandable

Layout as shown below:

Technical Requirements:

- Create a layout for the notification according to the interface above (does not need to be 100% identical).
- Handle the corresponding show Toast event for the previous, pause, next... buttons when the user operates on the notification
- Add a close button and handle the notification close event when the user operates
- Handle events to convert from normal to Expandable and vice versa

Estimated Time to complete: 60p
