Assingment 01. Operator overloading, Calling Kotlin from Java.....	4
Assignment 02. Reflection.....	4
Assignment 03. Collections	4

CODE	:	KOL_Assignment04_v1.0
TYPE	:	N/A
LOC	:	N/A
DURATION	:	180 Minutes

Assingment 01. Operator overloading, Calling Kotlin from Java

Write a small number of Kotlin functions in a Kotlin file (e.g. MyKotlinFunctions.kt) that perform addition, subtraction, multiplication, and division functions of two long numbers. And then create a Java file (eg Main.java) to call Kotlin functions from Java code.

Technical Requirements:

- Operator overloading
- Calling Kotlin from Java

Assignment 02. Reflection

Create class People with properties: public age, private gender and functions: private getGender, public getAge. Use Reflection to call all the properties and functions in the People class

Technical Requirements:

- Reflection

Assignment 03. Collections

Create a program with some functions as below:

- Users input a list Host Config (ip, port, type connection) (min 4 items). Each Entered Host Config will generate 3 Host Configs include ip, type connection and port + 1 automatically.
- Show information of all host config in list with one of the following conditions:
 1. IP
 2. Port
 3. Type connection
 4. Host Config
 5. <None>

Technical Requirements:

- Collections
